THE MAN BEHIND THE MASK

Masks in this last year have become a very controversial topic. Should we wear them, should we not wear them. Do they stop the virus spreading or don't they? It may come as a surprise but most people have been dealing with the issues of wearing a mask long before we ever heard of the Covid virus. These masks are not physical masks, but emotional and spiritual masks.

An infant's emotional development is restricted when they can't see their parents' faces. Masks stop us from communicating fully with each other. Our emotional and spiritual development is restricted when we can't see our Father in heavens face. These masks stop us from communicating fully with our Heavenly Father.

Very often we don't realize we are wearing one of these masks until God reveals it to us. Most of us find it difficult to have a real relationship with our Heavenly Father and we wonder why. It is because God desires only to have a relationship with the real you and, not a masked up version of you or me pretending to be someone we are not.

On this retreat we will be identifying and exploring some of the masks we as men wear to protect ourselves from each other, from our wives and children, and, yes sometimes to protect ourselves from God!!

This will be a really powerful time of discovering what masks we may be wearing and how step to out from behind them into the powerful presence of a savior who loves to heal and restore and died to have a real living mask-less relationship with the real you and me.
